2014 Kia Soul Hatchback Recall Report by Lemon Law Attorney

July 22, 2014

Roughly 52,000 2014 Kia Soul hatchbacks were recalled this week by Kia Motors due to potential steering wheel system failure that could increase the risk of a car crash, according to the National Highway Traffic Safety Administration.

The vehicles, manufactured July 21, 2013, through January 17, 2014, have a faulty pinion gear that could potentially loosen and separate from the steering gear assembly. The company attributes this failure to improper application of a thread-locking adhesive that took place during the vehicle's assembly.

Kia is in the process of notifying car owners so that the pinion plug can be replaced at no charge. Kia customer service number is 1-800-333-4542.

NEED A LEMON LAW LAWYER – CALL 800-235-6801
